# Embossed Rubber Release Film

## Description

Embossed rubber release films, primarily made of **Polyethylene (PE)** or **Polypropylene (PP)**, are essential in rubber, tire, and conveyor belt manufacturing. They prevent sticking, contamination, and deformation during processing and storage.

## Application

- Tire manufacturing and retreading
- Conveyor belt production
- Storing and separating raw rubber sheets and treads
- Plastic compound and composite sheet manufacturing

## Types of Films

1. **Semi-embossed film** - multilayer films with plain or embossed finishes.
2. **Embossed polyethylene Films** - Used as release liners for adhesive layers.
3. **Customizable films** - adjustable thickness, size, and coating for specific needs.

## Features

- **Easy Release:** Prevents rubber from sticking to itself or other surfaces.
- **Air Release:** Embossed pattern traps air for easy separation.
- **Contamination Protection:** Shields rubber from dust and dirt.
- **Process Efficiency:** Facilitates uniform cutting and reduces waste.
- **Durable & Reusable:** Offers high mechanical strength and heat resistance.
- **Customizable:** Available in various thicknesses, colours, and embossed patterns.

## Available Colour

White, Blue, Orange, Red, Green, Natural, Yellow and as per Customer required.

## Packaging

Rolls are stacked horizontally or vertically based on size and wrapped with bubble film and stretch film for protection.
